Soleri SERIES

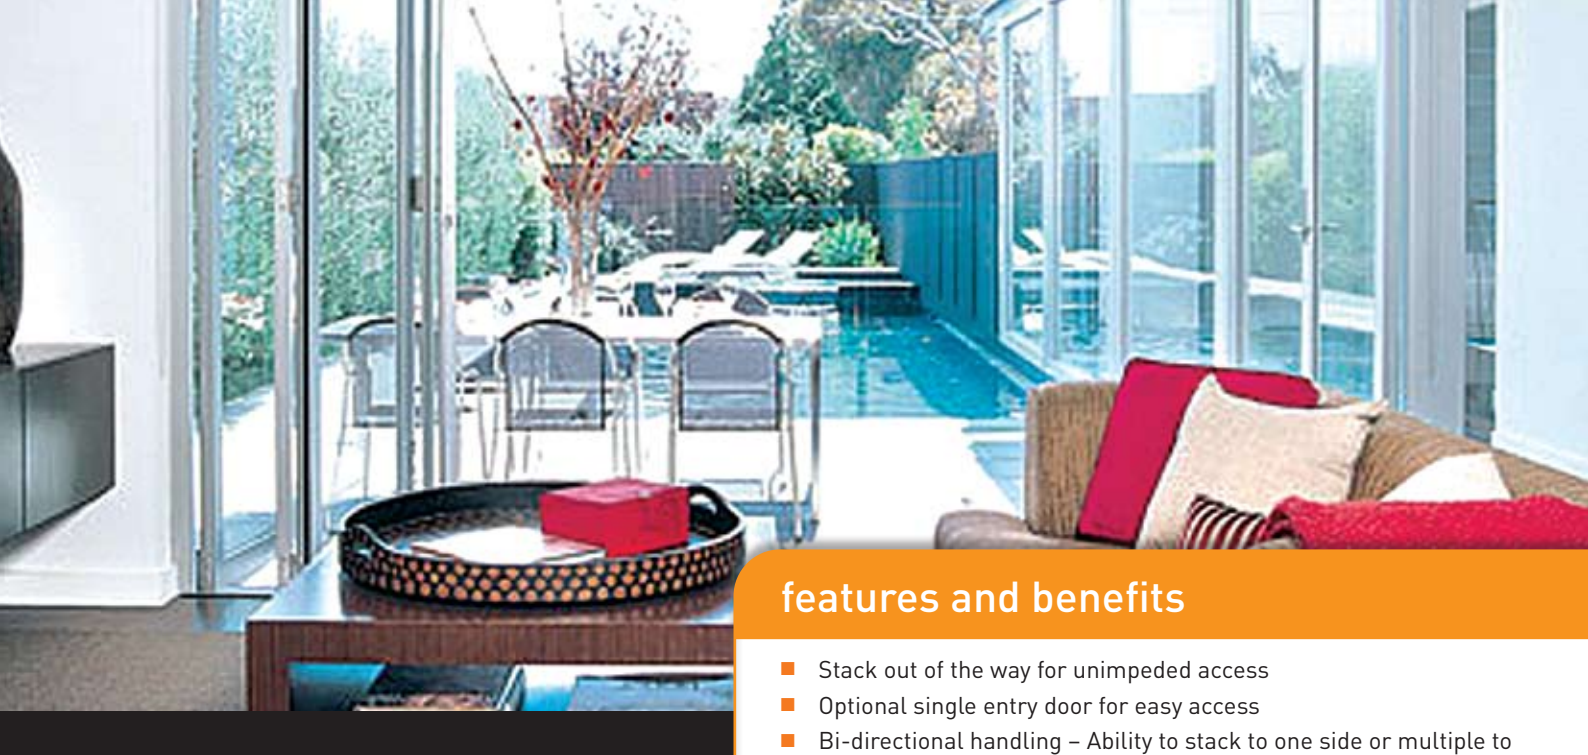

Bi-fold doors

The Hawkesbury bi-fold door creates a moving glass wall that opens the interior of the home to the outside, providing unobstructed views, natural light and ventilation. The bi-fold door is ideal for entertaining areas.

A choice of left or right opening directions allows the selection of a layout to suit your home, and a single entry door can be added for quick access and day-to-day use.

As an alternative the bi-fold door can be used internally as well as externally in your home.

The outboard track system allows easy cleaning and the low force sliding system provides maximum performance.

features and benefits

- Stack out of the way for unimpeded access
- Optional single entry door for easy access
- Bi-directional handling – Ability to stack to one side or multiple to both sides
- Continuous unbroken seals for improved performance
- Positive locking action providing maximum security and safety
- Hinge fixings with no visible screws to ensure a clean, flush appearance
- Outboard track system for easy cleaning of sand and grit
- Low force sliding system for easy operation
- Powder coated aluminium frames for strength and durability
- Hardware from Centor Architectural
- Top-rolling hardware for smooth, trouble-free operation
